## TITICACA LAKE: MIRROR OF THE STARS (3D/2N)

The islands of Lake Titicaca stand out for their ideal conditions to observe the stars: clarity of the sky, darkness of the surroundings, and geographical position. The heirs of the Andean culture and its worldview have an integral interpretation of astrology that fuses spirituality, science and social organization. This program has been designed to enjoy the lake and the stars: from a sunrise in the calm waters of Titicaca to a bonfire or a revitalizing bath under the starry night, or even a spectacular sunset from the top of the island where the 360-degree panorama is worthy of being remembered for a long time.
